

# Colonial Chemical Solutions, Inc.

A Subsidiary of Colonial Group, Inc.

*Growing a Business. Building a Family.*

## Colonial Chemical Solutions, Inc.

Colonial Chemical Solutions, Inc. offers a complete range of products and services for the food, chemical process and basic chemical industries. Colonial Group owns and operates terminals in Savannah, GA and Wilmington, NC. Our infrastructure enables us to provide consistently low-cost logistics and superior customer service.

### Food Grade

CCS has Food Grade / Kosher packaging facilities to enhance our line of available products. Colonial Chemicals is AIB certified, which demonstrates our commitment to safety, quality, customers and continuous improvement. This gives our customers confidence in the quality and safety of our products and facilities.

### Custom Blending

Colonial Chemical Solutions, Inc.'s custom blending operation features a 6,000-gallon stainless steel blend tank with the capacity of producing large scale homogeneous batches. Clients also have the option of temperature controlled 18 Ω deionized water to facilitate anything from simple solutions to custom blends. Blending formulations can be tailored to your specific needs from dry to liquid additions. Batch sizes range from 50 to 6,000 gallons.

### Quality Control and Assurance Lab

Our laboratory is located in Savannah, GA and equipped with state of the art instrumentation to ensure tight manufacturing tolerances. CCS's on-site quality control works to adhere to product quality requirements. The QC lab is in compliance with ASTM and ISO methods to produce superior analytical support and peace of mind.

### Feige System

We use a Feige semi-automatic filling system to facilitate the safe and accurate repackaging of solvents and flammables. Drums and totes are filled with calibrated accuracy while at the same time providing a safer working environment for our dedicated employees.

### Truck Fleet

The reliable delivery performance of Colonial Chemical Solutions, Inc.'s diverse truck fleet enables customers throughout the southeast to realize unsurpassed cost-efficiency by synchronizing supply with demand. Our knowledgeable team of professional operators is experienced and stays current on all safety and HAZMAT protocols. Equipped with the latest technology, we know, in real-time, our fleets' location and can re-route around any unforeseen obstacle ensuring your delivery schedule is not compromised. We can provide 24-hour emergency service at our customer's request.

### Warehouse

Colonial Chemical Solutions, Inc. is well positioned to offer a broad range of products to our customers. With over 580,000 sq. ft. of warehouse space in Savannah, GA, Atlanta, GA and Charlotte, NC, we move products safely, efficiently, and economically throughout the southeast. We operate heated warehouse space for those items that require temperature control. In addition to food grade and kosher, we offer NSF and USP products. Colonial is an NACD certified responsible distribution company.

# Colonial Chemical Products

## Acids:

Acetic  
Adipic  
Benzoic  
Chromic  
Citric  
Formic  
Hydrochloric  
Glycolic  
Lactic  
Muriatic  
Nitric  
Oleic  
Oxalic  
Phosphoric  
Stearic  
Sulfamic  
Sulfuric  
Tall Oil Fatty

## Alcohols:

2-Ethylhexanol  
Amyl Alcohol  
Benzyl Alcohol  
Cyclohexanol  
Ethyl Alcohol  
Isobutyl Alcohol  
Isopropyl Alcohol 99%  
Methanol  
n-Butyl Alcohol  
n-Propyl Alcohol  
Secondary Butyl Alcohol  
Sorbitol

## Aliphatic Solvents:

Heptane  
Hexane  
Lacquer Thinner  
Mineral Seal Oil  
Mineral Spirits  
Odorless Mineral Spirits  
142 Solvent  
VM&P

## Silicones:

Antifoams  
Compounds  
Emulsions  
Fluids

## Antioxidants:

1010  
565  
1330  
1425  
468  
TB7

## Ammonium Chemicals:

Ammonium Bicarbonate  
Ammonium Bifluoride  
Ammonium Chloride  
Ammonium Hydroxide  
Ammonium Persulfate  
Ammonium Sulfate

## Aromatic Solvents:

Aromatic 100, 150, 200, (ND)  
Ethyl Benzene  
Toluene  
Xylene

## Bleaching Chemicals:

Hydrogen Peroxide  
Sodium Hydrosulfite  
Sodium Hypochlorite  
Sodium Perborate  
Sodium Percarbonate

## Amines:

### Alkyl Amines:

Diethylamine  
Diisopropylamine  
Dimethylethylamine  
Monoethylamine 70%  
Triethylamine

### Ethanolamines:

Diethanolamine  
Monoethanolamine  
Triethanolamine

### Isopropanolamines:

Diisopropanolamine  
Monoisopropanolamine  
Triisopropanolamine

### Ethyleneamines:

Aminoethylethanolamine  
Aminoethylpiperazine  
Diethylenetriamine  
Ethylenetriamine  
Tetraethylenepentamine  
Triethylenetetramine

### Other Amines:

Cyclohexylamine  
Morpholine

## Specialty Products:

D'Limonene  
DMF—Dimethyl Formamide  
NMP—n-Methyl Pyrrolidone  
Glycerin

## Sodium Chemicals:

Caustic Soda Liquid  
Caustic Soda Dry  
Soda Ash  
Sodium Bicarbonate  
Sodium Bisulfate  
Sodium Bisulfite  
Sodium Carbonate  
Sodium Chlorate  
Sodium Chloride  
Sodium Metasilicate  
Sodium Methyrate  
Sodium Nitrate

Sodium Nitrite  
Sodium Persulfate  
Sodium Silicate  
Sodium Sulfate  
Sodium Sulfide  
Sodium Sulfite  
Sodium Xylene Sulfonate

## Glycol Ether Esters:

DB Acetate  
DE Acetate  
DPM Acetate  
EB Acetate  
EM Acetate  
PM Acetate

## Chlorinated Solvents:

Methylene Chloride  
Monochlorobenzene  
Perchloroethylene  
Trichloroethylene

## Esters/Acetates:

Diabasic Ester  
Ethyl Acetate  
Isobutyl Acetate  
Isopropyl Acetate  
n-Butyl Acetate  
n-Propyl Acetate

## Ketones:

Acetone  
Cyclohexanone  
Diacetone  
Isophorone  
Methyl Ethyl Ketone (MEK)  
Methyl Isobutyl Ketone (MIBK)  
Methyl Propyl Ketone (MPK)

## Potassium Chemicals:

Caustic Potash  
Potassium Carbonate  
Potassium Chloride  
Potassium Persulfate  
Potassium Silicate

## Glycol Ethers:

DB  
DE  
DPM  
EB  
EEP  
EM  
EP  
PM  
TPM  
PPH

## Plasticizers:

Dibutyl Phthalate (DBP)  
Diisononyl Phthalate (DINP)  
Diocetyl Phthalate (DOP)  
Diocetyl Terephthalate (DOTP)  
Epoxidized Soybean Oil

## Glycols:

Diethylene Glycol  
Dipropylene Glycol  
Ethylene Glycol  
Hexylene Glycol  
Polyethylene Glycol  
Polypropylene Glycol  
Propylene Glycol  
Triethylene Glycol  
Tripropylene Glycol

## Magnesium Chemicals:

Magnesium Chloride  
Magnesium Hydroxide  
Magnesium Oxide  
Magnesium Sulfate

## Phosphates:

Ammonium Phosphate  
Dipotassium Phosphate  
Disodium Phosphate  
Monopotassium Phosphate  
Monosodium Phosphate  
Potassium Tripolyphosphate (KTPP)  
Sodium Hexametaphosphate (SHMP)  
Sodium Tripolyphosphate (STPP)  
Tetrapotassium Pyrophosphate (TKPP)  
Tetrasodium Pyrophosphate (TSPP)  
Trisodium Phosphate (TSP)
